Three Drown When Boat Overturns; County Toll Is 17

Over-loaded Boat Cause of Tragedy in Fox Lake Sunday

Recover Body in L. Catherine

An over-loaded boat again has been the cause of loss of life in Lake county waters. The latest tragedy occurred Sunday in Fox Lake when two men and a five-year-old boy drowned when the rowboat in which they and four other persons were riding overturned when struck by the wash of a speed boat several hundred feet from shore.

The dead are Arthur T. Wittchen, 41, Fox Lake carpenter; Attorney Samuel G. Feura, 50, of 2330 Lowell ave., Chicago, and John Anderson, 5, of 2234 Fletcher ave., Chicago.

Those rescued were Mrs. Feura, Florence Anderson, 7, sister of the drowned boy, and Mr. and Mrs. George L. Franklin, of 7131 Grand ave., Chicago. Franklin aided those rescued in clinging to the overturned boat. The bodies of the dead were recovered shortly after the tragedy.

The Antioch Rescue squad called to the scene reported that Fox Lake firemen recovered the last of the bodies shortly after their arrival.

While the local rescue squad was in Fox Lake, fishermen in Lake Catherine reported the finding of the body of Nicholas W. Cochran who was drowned on July 12. The body came to the surface about 7 p. m. Daily draggings of the lake for 14 days and nights had failed to locate the body which was lying in about 65 feet of water.

On July 12 Cochran was on Lake Catherine with a girl friend. A good swimmer, he jumped into the water from a rowboat to cool off. He went down. The girl friend's effort to save him proved futile. She was rescued and was treated for submersion by the Antioch Rescue squad.

The three drownings at Fox Lake and the one at Lake Catherine were all held "accidental" by juries at inquests conducted late Sunday by County Coroner John L. Taylor.

The coroner again warned boaters of the danger of over-loading boats, a practice that has been the cause of numerous drownings in this locality. The Antioch Rescue squad this week is posting safety placards throughout the lakes region in an effort to eliminate water fatalities which have reached the alarming total of 17 so far this year, and all of which could have been avoided by observance of the ordinary rules of safety in water. The Antioch Lions Club, the Antioch American Legion Post and the sheriff's office are co-operating in the promotion of the safety program.

PUBLIC INVITED TO GARDEN TOUR

The public is invited to tour the gardens at the summer home of Mr. and Mrs. Walter H. Mayer of Chippewa Beach from one o'clock to six on Sunday, Aug. 2. There will be a charge of fifty cents for each guest, but they will receive fifty cents back in defense stamps, as this is a "defense tour." In the event of rain the tour will be held the following Sunday. The gardens may be reached from highway 42 to Main street in Winthrop Harbor and follow markers.

Charles Venn, founder of Venn's Island in Lake Catherine and a summer resident of this community for half a century, called at the News office Saturday to pay his 46th subscription to the paper. Mr. Venn first added his name to the list when the founder, J. J. Burke, was the publisher.

Antioch Softball Team Wins from Lake Geneva

The Antioch Soft Ball team won, 9 to 3, over the Lake Geneva team at Lake Geneva, last night. They will play Round Lake Friday night at the Antioch Township High School.

Mrs. Lyman Huff and daughter, Betty, entertained at a weiner roast at their home at Cross Lake Wednesday evening in honor of Miss Marilyn Sobey, who expects to leave Antioch soon for her new home in Highland Park.

Mrs. George Schlosser, Noble Grand of the Antioch Rebekah lodge, Mrs. William Runyard, Mrs. Ida Osmond and Mr. and Mrs. John Moran spent the day Thursday at the Elgin sanitarium visiting Miss Edith Colegrove, who has been a patient there for the past month.

Stearns Investigates Mystery Fire in Aurora

James W. Stearns, state deputy fire marshal, from Antioch, was working last week on the investigation of a fire at Aurora.

The fire was on July 12, when a building owned by John Stolp at 1066 Elliott avenue burned. The fire came more than a month after Stolp had moved to Elgin.

Stearns, assisted by John Peterson, assistant state's attorney, Chief Edward J. Ryan, Chief of Police Fred Hess, and assistant Chief Carl Patterson, questioned neighbors around the site of the fire. No definite conclusion has yet been reached but the investigation will continue.

Antioch Legion Elects Tonight

Local Post to Name Officers and Delegates to State Meet

The Antioch American Legion Post No. 748 will elect officers for the ensuing year at a special meeting to be held this evening in Legion hall. The date of the annual election was stepped up a week so that the local post will conform to the state department regulation that all local posts officers be elected 30 days before the annual state convention.

The state meeting this year will be held in Peoria on August 23, 24 and 25. Two delegates and two alternates to the convention will be named following the election of officers tonight.

Set Antioch Voters' Registration Days: August 3, 4, and 5

Voters of Antioch township may register under the Illinois permanent registration law at the Antioch Grade school on August 3, 4 and 5 from 3 to 9 p. m., according to arrangements just completed by County Clerk Jay B. Morse, who is chief registrar for Lake county, and Supervisor B. F. Naber.

Recently the Lake county board of supervisors approved the plan of the county clerk to establish places of registration in the various townships to operate under the direction of the supervisors in order to facilitate the complete registration of Lake county's 70,000 voters, which must be filed in duplicate in the county clerk's office before the November election.

May Register at Lotus School. Supervisor Naber announced today that voters in Antioch Precinct 3, west of Fox river, may register at the Lotus school on the same days and hours set for the Antioch registration.

A staff of volunteer workers will handle the registration here under the direction of Prin. Ralph E. Clabaugh, and volunteers also will be in charge at the Lotus school.

A reproduction of the registration blank and a resume of the provisions of the law will be found on page 3 of today's News.

Van Duzer Qualifies as Sharpshooter at Deerfield Meet Sunday

Ben Van Duzer, charter member and one of the organizers of the Antioch Marksmanship club, qualified as Sharpshooter at the contest staged Sunday at the Sheridan Rifle Club, range near Deerfield.

The meet was under the sponsorship of the Department of Marksmanship of the Lake County Council of Defense and was open to all who had completed the course in rifle instruction.

Van Duzer scored 165 out of a possible 200 to earn his badge as sharpshooter. Only 160 was required to earn the title.

Youth Will Hear "Story of Daniel" at Methodist Church

The "Story of Daniel," set to musical accompaniment, will be presented by a group of young people at the Antioch Methodist church on Sunday afternoon at 4 o'clock. The public is invited.

The prophet Daniel will be portrayed (1) as a school boy; (2) as a youth and an exile from home; and (3) as top man in the king's court. The narrator will be the Rev. W. C. Henslee; and the singing band composed of Joan Felter, Doris Hieber, Rosemary Morley, Mary Jean Maplethorpe, Ralph Trieger and Ronald Burnette, will provide the musical accompaniment.

Antioch Man Is Electrocuted in Waukegan Plant

William G. Beelow Killed by Live Wire at Johns-Manville Plant

William George Beelow, 34, resident of Antioch and the father of three children, was accidentally killed at the Johns-Manville company plant in Waukegan at 2:45 p. m. Saturday when he came in contact with a live wire.

A verdict of "accidental death" was returned by the jury at the inquest conducted by Coroner J. L. Taylor Monday afternoon at the funeral home at 408 N. Sheridan road.

Beelow had been employed at Johns-Manville since February, 1941. On Saturday afternoon he was working around machinery in the transit department when he touched a wire carrying 440 volts of electricity. It is believed he died instantly, although efforts were made to revive him by the fire department's inhalator squad.

Born in Minnesota, he was born April 13, 1908, in Westbrook, Minn., one of the 14 children born to Albert and Louisa Beelow. The family moved to Chicago when William was a boy. When a young man he came to Fremont township and worked at farming for John Witz and others in Lake county.

He was married on April 18, 1934, to Dorothy Hazel Brixen, daughter of Mr. and Mrs. Edward J. Brixen, at their home which was then near Ivanhoe. For several years Mr. Beelow worked for the Hawthorne dairies and the Soo Line railroad. He moved his family to Antioch a year and a half ago when he became an employee of the Johns-Manville company.

He is survived by his wife, Dorothy, and three children, Sylvia Marie, 7, Charlotte Jean, 5, and Janet Mae, 1 year old. Also six brothers: Charles, of Madison Lake, Minn.; Albert, of Janesville, Minn.; Fred, of Waseca, Minn.; John, of Waldorf, Minn.; Paul, a veteran of the world war, of veterans' hospital, Downey, Ill.; and Frank, of Mundelein. Three sisters also are left: Mrs. Emma Frost of Chicago; Mrs. Louise Shinn, Peoria; and Mrs. Marie Franz, Chicago.

Funeral services were held at 2 p. m. Tuesday at Strang's funeral home, with the Rev. C. Arthur Jenne, of Ivanhoe officiating, and interment was in Lakeside cemetery, Libertyville.

14 Antioch Boys Will Have Exhibits at Elgin Ag. Fair

A list of entries for competition in the 1942 Elgin Agricultural Fair, August 4, 5, 6 and 7, as released this week by the fair association, indicated that 14 boys from the Future Farmer organization of Antioch will have exhibits. The entries consist of sheep, calves, pigs and garden.

The boys, in company with their instructor, C. L. Kutil, will leave Monday for Elgin with their exhibits and will be transported by Lloyd Miller, one of the exhibitors. The Antioch entries will require two truck loads.

Following are the Antioch entries: Elmer Hartnell—cow, yearling and 3 sheep; Lloyd Miller—cow and yearling heifer; Fred Hoekstra—senior calf; Alan Thain—senior calf; Robert Hughes—yearling calf; Wayne Drom—junior yearling, bull calf, sow, gilt, boar; Raymond Scott—senior calf; Albert Smith—3 sheep; Robert Severn—3 sheep; James Jones—sow, boar and gilt; Ted Carlson—barrow and pen of barrows; Milton Smith—barrow and pen of barrows; Jack Flannagan—garden; Earl Brixen—garden.

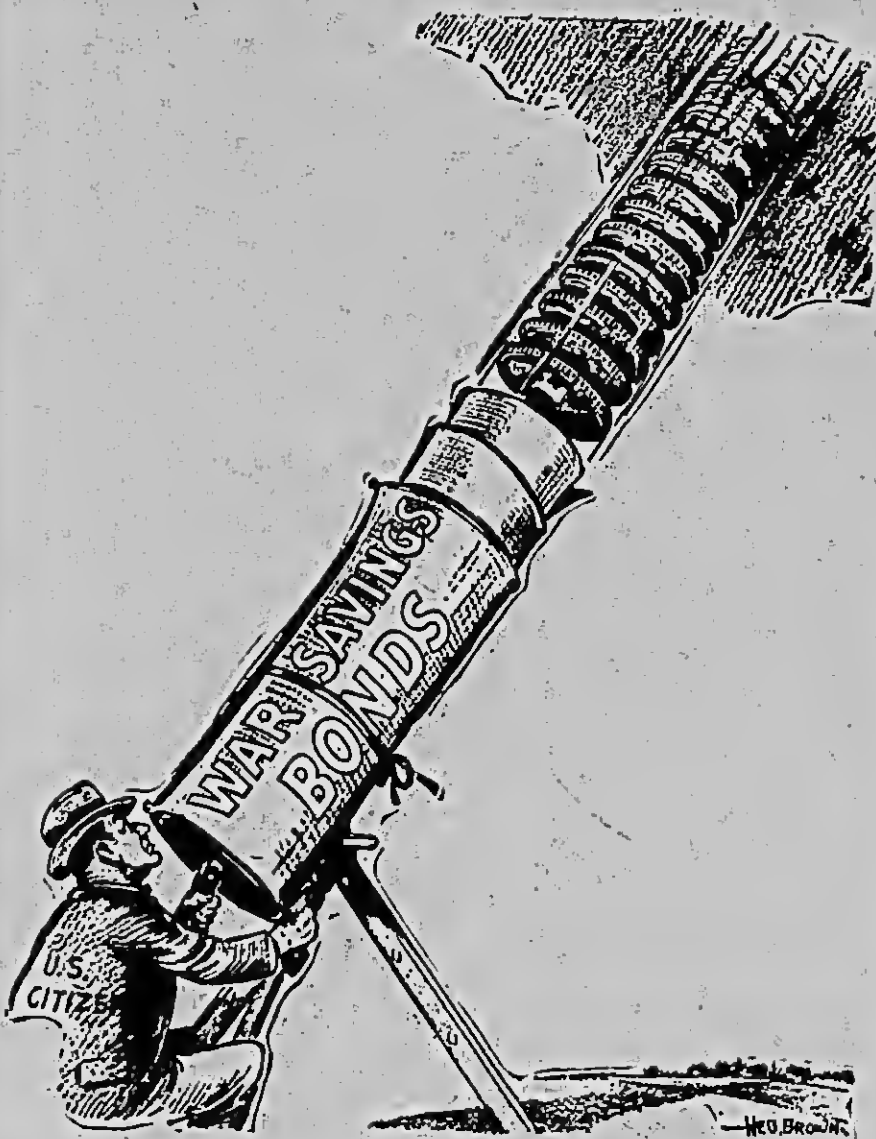

COUSINS MEET AFTER 50 YEARS

A reunion with cousins whom he had not seen for over 50 years was the happy experience of Fred A. Simons, of 2209 Pacific Coast Highway, Lomita, California, who spent several days here last week the guest of Ira and Ernest Simons and Mrs. Maule Sablin and Mrs. Dora Sablin. Fred is a double cousin of the four Antioch residents, the two elder Simons brothers having married sisters.

Fred, who is enjoying a two months vacation, visited his son in New York, and will also visit relatives in Iowa, where he was born, and will tour Washington and Oregon en route home. Fred is a real estate broker in Lomita, a suburban city near Los Angeles.

Mrs. Reather and daughter of Harvard, Ill., were guests of Mr. and Mrs. Ed Turner, Wednesday.

Speed Is Keynote in Salvage Drive

Chairman C. L. Kutil Says 125,000 Tons of Metal Needed by Sept. 1

Lack of scrap iron has forced eight open hearth furnaces in Chicago to shut down. To keep the steel plants running and turning out much needed military equipment, war industries of the Chicago areas have turned now to make a special effort to gather in at least 125,000 tons of scrap metal from the farms and homes of the state of Illinois by Sept. 1, according to a report made to the News today by C. L. Kutil, chairman of the salvage drive now getting under way in Antioch township.

Tin Cans Wanted

Aside from the regular iron scrap, such as parts of farm machinery, old stoves, cars, old tools, etc., tin cans have now come into their own. Tin cans contain 2% tin and 98% iron. The much needed tin can easily be recovered and the iron will also be used. However, tin cans must be properly prepared if they are to be useful. Take care of them as follows:

1. Wash cans thoroughly after emptying contents and remove paper labels.
2. Open both ends and tuck them inside.
3. Flatten cans by stepping on them lightly. Leave enough space between flattened sides to see through.
4. Keep them in a separate cardboard box or bushel basket.
5. Do not include paint, oil, varnish, beer, or evaporated milk cans. All food and tobacco cans should be saved and turned in.

Local Drive Ready to Start

C. L. Kutil, Antioch's village and township salvage chairman, announced today that everything is in readiness to start the local drive, and all residents are urged to make every effort to gather and salvage all metals, tin cans, old rubber, rags, and grease. Grease should be saved and placed in large, wide mouth tins and sold to any of the local butchers. White grease sells for 5 cents a pound and brown grease for 4 cents a pound. These are ceiling prices and there is no need for holding it for a higher price.

Farmers or home owners are urged to collect their scrap metals including the flattened tin cans and sell them to any dealer. The Sheahan Implement company across the street from the Antioch Lumber company, on Depot street will buy scrap iron, and other salvage.

Those who wish to donate salvage to organizations and charities, should call Antioch 296 and ask to have it picked up by a village or township truck if the amount warrants. Small amounts, like a bushel basket of flattened tin cans or a hundred pounds of iron, etc., can also be left at the Sheahan Implement Co., and car-marked for charities.

Waste paper is not wanted at present. If in doubt about what to do, call C. L. Kutil, Salvage chairman, Antioch 296.

A ceiling price has been placed on scrap iron, so there is no need of holding for higher prices. Sell it now, when your nation needs it.

Home Front Must Stop Accidents to Conserve Manpower

Casualties to the U. S. Armed forces since Pearl Harbor have been 4801 dead, 3,218 wounded and 36,124 missing—a total of 44,143. These figures are from the government.

Casualties to American workers since Pearl Harbor through accidents have been 30,000 dead and 2,500,000 wounded. These figures are from the National Safety Council.

The Council offered the comparison today as evidence that accidents help the Axis in draining America's manpower that is vital to victory.

The total American accident toll since Pearl Harbor has been 60,000 killed and approximately 5,500,000 wounded.

Among the victims are thousands of skilled workers and key men in the nation's war program, who cannot be replaced. "Casualties on the battlefield are a necessary sacrifice to perpetuate our freedom," said N. H. Dearborn, executive vice-president of the Council. "Casualties on the homefront, through accidents, are preventable and hinder the efforts of our fighting men by sabotaging the production of the weapons and material of war."

"Those who fall in battle die for a cause. Those struck down by accidents die in vain. It is the duty of every patriotic American to conserve manpower for victory. We must stop accidents."

Famous Entertainers Will Attend St. Joseph's Festival at Grayslake

Mac Kennedy Kane and her 16 dancers and entertainers, and Koko, the famous clown, will be among the entertainment features offered at St. Joseph's dinner and festival to be held at Grayslake Sunday afternoon and evening, according to announcement made today by Gara Polo, chairman of arrangements.

Miss Kane and her entertainers will be remembered as appearing in the Irish Village at the Century of Progress. Koko, the clown, now retired, was formerly with the Olympian circus and also with Barnum & Bailey circus. The famous annual chicken dinner will be served at 12 o'clock and supper at 6:00.

Drive for Old Music Records Lags in Antioch

Only 600 Are Turned in to American Legion; Post Quota Is 4,150

With only three days remaining before August 2, the date marking the conclusion of the American Legion's city and nation-wide drive to collect 37,500,000 old, used and broken records, American Legionnaires and Legion Auxiliary members in this community are making a heroic effort to put the scrap record campaign over the top.

The Lake county quota was set at 78,425, and the local post quota is 4,150. To date only about 600 old records have been collected here, according to Legion men.

It's for Men in Service

All collected records will be taken to a central warehouse located in Chicago following the conclusion of the campaign. They will then be turned over to Records For Our Fighting Men, a non-profit corporation, approved by the President's Committee on War Relief Agencies. This group will then sell the discs to record manufacturing companies, and with the funds thus raised will purchase, at factory cost, millions of new records for America's fighting men all over the world.

The success of this drive is expected to provide continuous recorded entertainment to the men in America's armed forces. A committee composed of prominent musicians will select the millions of recordings to be distributed to fighting men for the duration of the war.

U S O CAMPAIGN IS "OVER THE TOP"

Antioch township is "over the top" in its drive for funds for the United Service Organizations, Chairman Geo. B. Bartlett reported today. The local quota of \$600 was reached yesterday.

Mayor Bartlett turned over the details of the drive to Roman Vos, commander of the Antioch Legion Post, and to Mrs. Frank Harden, president of the Legion Auxiliary. To them and to their co-workers belongs the credit for the success of the campaign, Chairman Bartlett told the News.

Obituary

Frank Burroughs

Frank C. Burroughs, 82 years, a well known resident of Wilmet, died at his home Friday evening following a short illness.

He was born at Chenango Forks, New York, on May 20, 1860, the son of the late Mr. and Mrs. Eliza Burroughs. At the age of ten years he moved to Greenwood, Ill., with his parents. There he spent his early life and was educated. As a young man he engaged in the creamery business and operated creameries in Bristol and Wilmet for thirty years. For a number of years he has conducted the farm in Wilmet known as the Wilbur homestead.

On February 15, 1893, he was united in marriage to Miss Bessie Wilbur. He was active in the community life of Wilmet and admired among the farmers of Kenosha county.

He is survived by his widow. One son, Cecil, preceded him in death.

FORESEE RUSH AT VOTE DESK

Registration Headquarters Expects Busy Weeks Ahead as Citizens Wake Up.

A complete outline of all of the questions that the registrant must answer under the new permanent registration law was released by County Clerk Jay B. Morse for the information of the more than 70,000 voters in Lake county yesterday.

While the registration headquarters located on the ground floor just inside the west entrance of the courthouse, have been open for more than a week, the number of registrants to date barely exceeds the 500 mark.

Expect Rush Later. It is believed that when more citizens of the county realize that failure to register will result in the loss of their right to vote at general elections beginning Nov. 3, there will be a rush for registration.

Those who register early will escape the possibility of standing in line, a condition which is certain to occur during the last several weeks of the period of registration which will end on Oct. 6, 28 days prior to the election.

While it is to be presumed that all native-born citizens who apply for registration will have knowledge of all of the facts that they must give to the registrar, it was made clear by Mr. Morse today that all foreign-born citizens should bring all of the papers pertaining to their citizenship with them when they appear at the registration bureau. This will not only assist the registrar in filling out the application for registration, but will permit certification as a legal voter without making it necessary for the county clerk and his assistants to check with the U. S. bureau of naturalization.

Walter J. Smith, deputy county clerk in charge of the registration bureau, visited the Chicago office of the bureau of naturalization in Chicago yesterday in order

to clear up some of the problems attendant to registration of foreign-born. He was advised by executives of the bureau to insist that all foreign-born applicants for registration supply him or his aides with official records of their naturalization if they have such records.

Data Needed

Information that must be supplied under oath is as follows:

1. His or her last name, full first name, and middle name or initial, (initial preferable) titles other than Mr., Mrs. or Miss are not permissible.

2. (a) Place of residence (permanent abode only) by giving the house number (if city or village ordinance provides for the numbering of homes) room or apartment number if any, name of street, if resident living within a municipality, and name of such city or village.

(b) Place of residence (permanent abode only) by giving the name of road or street, box number (if any), RFD number, name of postoffice, also section, township and range, number in which the residence is located, if resident living outside of city or village limits.

(c) If living inside of village limits, but having a rural free delivery from postoffice other than the village in which resident lives, give name of box number, RFD number and name of such postoffice.

3. Term of such residence, 4. Age, which may be answered by stating 21 years or over. (Persons who will have attained the age of 21 at the date of the next election are eligible to register, if otherwise qualified.)

Applicants for registration must prove their citizenship in either of the following ways:

Native born:

1. That he or she is a native born citizen.

2. Give name of state in which you were born.

Foreign born:

1. Name of sovereign nation you were a subject of as shown on the naturalization papers.

2. (a) If deriving citizenship under his or her own papers, give the name of court, city, state and date of naturalization.

(b) If deriving citizenship under parent's papers, he or she must give the parent's name, court, city, state and date of such parent's naturalization. Also his or her age at the time of parent's naturalization.

(c) If an alien woman and married before Sept. 22, 1922, to an alien husband and which husband was naturalized prior to said marriage or after such marriage but prior to Sept. 22, 1922, she must give the court, city, state and date of the husband's naturalization, and date of such marriage.

(d) If an alien born woman, married to a native born citizen prior to Sept. 22, 1922, the date of such marriage must be given.

3. If born to parents that are citizens of the United States, while they are temporarily visiting abroad or in the diplomatic services of the United States, give place of birth and reason why parents were abroad at that particular time.

Applicants for registration are requested by the county clerk to bring with them all papers relating to their naturalization that they might have to the place of registration, in order that the registrar may have complete information on the matter. This will make it unnecessary for the county clerk to check with the bureau of naturalization for further information.

Suffering loss of citizenship:

1. That he or she is not suffering the loss of citizenship.

Assistance in voting:

If in need of assistance in voting registrant will give reason for same.

Signature:

(a) If registrant is unable to sign his or her name, he or she shall answer any such further questions as the registrar may ask and then shall affix his or her mark after reading the affidavit.

(b) Registrants able to sign their name, will read the affidavit, then affix their signature by signing their first name in full, middle name of initial, (must be same as answered in question 1). Last name in full.

Precinct number.

Know your precinct number, also be sure that you are right, as you will be asked that question when you register.

Small Living Room

A small living room acquired distinction through wide use of plum color and white. The woodwork—including the mantel—was white painted, and the walls coated in dusty plum color to match the rug. To add height to the room, floor length curtains of gray-rose taffeta hung from the white painted ceiling molding to the floor, framing glass curtains of sheerest white. Glazed chintz with beige figures on a green background slip-covered the mahogany furniture. Green and white lamps, oyster white seat of the desk chair, and a small beige rug before the fireplace gave further life to the room.

Invincible Determination

The longer I live, the more certain I am, that the great difference between men, between the feeble and the powerful, the great and the insignificant, is energy—invincible determination—a purpose once fixed, and then, death or victory.—Buxton.

What You Buy With WAR BONDS

When the American Expeditionary Force landed in Ireland recently newspapers reported the citizenry remarked at the similarity of the steel helmets worn by our boys with those worn by German troops. These steel hats are protection from shrapnel fragments and other light missiles. We need thousands of them for they are a regular issue to every American soldier.

A smart strap fastens under the chin and they are padded for comfort. One steel helmet costs \$5.50 every time you fill a \$5 stamp book you are buying protection for an American soldier. MISS LAURSEN BECOMES BRIDE OF J. BLACKMAN, JR.

For her marriage to John Blackman, Jr., last Saturday Miss Lorraine Laursen chose a wedding gown of pink crepe and satin. Her flowers were sweetheart roses and baby's breath. The bride is the daughter of Mr. and Mrs. Arthur Laursen, 786 Parkway avenue, and the bridegroom's parents are Mr. and Mrs. John Blackman, Sr., of Wilmett, Wis.

Mr. Laursen gave his daughter's hand in marriage at the ceremony read by the Rev. W. A. MacArthur, Lake Villa, at the Laursen home. Hans von Holwede played the wedding march.

Miss Eleanor White in a frock of beige crepe, was maid of honor. Virgil Horton served as best man.

The home was beautifully decorated with cut flowers, and an archway was formed by six of the bride's friends and relatives with white gladioli. Those forming the archway were: Elsworth Fox and son, Glenn, Mr. and Mrs. Carl White, and Mr. and Mrs. William Klemens.

Following the nuptial service a reception for immediate friends and relatives from Merrimac, Chicago and Kenosha was held at the Laursen home.

The bride and bridegroom are graduates of the Antioch Township High school and the bride has been employed at the Antioch Telephone exchange for the past two and one half years.

The newlyweds left immediately for a short honeymoon trip to Lake Geneva, returning to Antioch Monday evening. They expect to make their home with the bride's parents for a few months. The groom is employed with Henry Kentner.

ANTIOCH HOME BUREAU HELD MEETING JULY 22

Members of the Antioch Unit of the Home Bureau met for a regular business session Wednesday afternoon at the home of Mrs. R. S. Winslow on Fox lake. A very fine lesson on first aid and demonstrations on bandaging was given by the Cedar Lake 4-H club girls. Mrs. Roy Christian is their club leader. Sugar was supplied to each member for cookies to be made for the U. S. O. cookie bars which the unit will keep filled during the first week of August.

Mrs. Alice McDougall gave an interesting talk on infantile paralysis and also on the treatment of cancer. Mrs. Ida Wells, and Mrs. Myrtle Savage gave the lesson on "Care and Abuse of the Feet." Mrs. Bertha Burnett read the lesson on "Chin Lifters."

The August meeting will be a picnic at the home of Mrs. Alice McDougall at Fox River bridge.

A luncheon was served following the business. The 4-H girls enjoyed a swim during the afternoon session.

CHRISTIAN SCIENCE CHURCHES

"Truth" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, July 26.

The Golden Text was, "The word of God is quick, and powerful, sharper than any two-edged sword, piercing even to the dividing asunder of soul and spirit, and of the joints and marrow, and is a discerner of the thoughts and intents of the heart" (Heb. 4:12).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Give ear, O ye heavens, and I will speak; and hear, O earth, the words of my mouth. Because I will publish the name of the Lord; ascribe ye greatness unto our God. He is the Rock, his work is perfect; for all his ways are judgment: a God of truth and without iniquity, just and right is he" (Deut. 32:1, 3, 4).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "In Science, Truth is divine, and the infinite God can have no unlikeness. Did God, Truth create error? No! 'Doth a fountain send forth at the same place sweet water and bitter?' God being everywhere and all-inclusive, how can He be absent or suggest the absence of omnipresence and omnipotence? How can there be more than all?" (P. 287).

METHODIST CHURCH

Antioch, Illinois

Fifteen members of the Official Board met in special session last Wednesday evening to plan definite objectives for the future. A plan covering five years was adopted without a dissenting vote. The portion accepted as the objective for the present year includes: 20 per cent increase in membership, double attendance at the morning service and at church school, a personal visitation campaign, re-establishment of Sunday evening services, organization of the young people, and the acceptance of a budget for the year of \$2400.

Worship with us next Sunday and every Sunday and help us reach these objectives.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

ABRAHAM: A PIONEER IN FAITH

LESSON TEXT—Genesis 12:1-9; Hebrews 11:8-12.
GOLDEN TEXT—Fear not, Abram: I am thy shield, and thy exceeding great reward.—Genesis 15:1.

Without faith it is impossible to please God (Heb. 11:6). The opposite is also true, namely, that faith always pleases God. As we read the Bible and consider Christian experience, it is evident that God is constantly longing to show Himself strong in behalf of them who believe Him (II Chron. 16:9).

Abraham was not the first man to walk by faith. Before him came such men as Abel, with his acceptable sacrifice; Enoch, with his walk pleasing to God; Noah, who believed and obeyed; and others.

But Abraham was nonetheless a pioneer of faith. He had many other noble characteristics, and was a man of such distinction that his memory is venerated by Jews and Mohammedans as well as Christians. Yet his real claim to an outstanding place in history is that by faith he responded to God's sovereign act in choosing him to begin a new nation, to be His chosen people.

We note two important points about faith:

1. Faith Makes Demands. In the very nature of things, faith calls for action consistent with belief. "Faith without works is dead" (James 2:20), that is, not a real faith at all. In Abraham's life (and in our life) faith calls for:

1. Separation (Gen. 12:1). "Get thee out" was God's command to Abraham. To accomplish His divine purpose God had to take him out of the heathendom of his fathers, and start anew. It is His command to His followers today, "Come out from among them, and be ye separate, saith the Lord" (II Cor. 6:17).

Who will doubt that this is the crying need of the church today, for instead of the church being in the world seeking to win it to Christ, worldliness has come into the church and devalued its message.

2. Obedience (Gen. 12:4-6; Heb. 11:8, 9). "Abram departed, as the Lord had spoken" (v. 4). He didn't know where he was going, but he did know who had called him, and he went. Faith knows God, and obeys Him without hesitation and without reservation.

Obedience is a virtue that needs to be revived, in the home, in school, in society, and especially in our relation to God, for there surely should be no disobedient children in the family of God. He merits and expects obedience.

3. Trust (Gen. 12:7-9; Heb. 11:10).

An assured reliance on the Word of God is a part of faith. God made a promise to Abraham. He accepted it, and worshipped. Here was no questioning, no bargaining, but simple trust in God's word. In fact, there was anticipation of even greater things to come (Heb. 11:10).

We need men of vision and that means we need men who by faith can see the unseen, who can see "a city which hath foundations" even in the midst of destruction and disorder. "In God We Trust" must be more than a motto on our coins if America is to survive.

II. Faith Brings Results. The world wants to know if a thing works before accepting and approving it. Well, faith really does work! It brings:

1. Blessing (Gen. 12:2, 3). God is always on the giving hand. "I will bless," was His word to Abraham, not only for Abraham himself and for the great nation of which he was to be the father, but to "all the families of the earth" (v. 3). How gloriously that promise was fulfilled in the coming of Christ our Redeemer, who also was a "son of Abraham" (Matt. 1:1).

2. Protection (Gen. 12:3). "I will curse him that curseth thee." That promise to Abraham is still binding and valid. God is not through with Israel. The nations and persons who have vented their hatred upon the children of Abraham need to take notice.

We need to be reminded that God's protecting care is just as sure over us who bear His name. We too are "safe in Jehovah's keeping," even in what is perhaps the darkest hour in the history of the world: Faith in God brings to us the protection of His almighty hand.

3. Fulfillment of Promise (Heb. 11:11, 12). The entire promise to Abraham hinged on the birth of a son, something which was, humanly speaking, beyond all possibility. But because Sara, joining Abraham in believing God, "judged him faithful who had promised," it came to pass.

"With God all things are possible" (Matt. 19:26). He delights in doing the impossible in response to the faith of His children. Apart from that fact we might be fearful, yes despondent, but "with God" we say again, "All things are possible."

THOUGHT FOR THE WEEK

Contributed by the Baha'i Group

AN APPRECIATION

"A woman brought me the other day a book. I spell it with a capital letter because it is a glorious book of love and goodness, strength and beauty.

She gave it to me because she had learned I was in grief and sadness and wanted to help. She put it into my hands saying: 'You seem to live up to His teachings.' And when I opened the book I saw it was the word of 'Abdu'l-Baha, prophet of love and kindness, and of his father the great teacher of international good-will and understanding of a religion which links all creeds.

Their writings are a great cry toward peace, reaching beyond all limits of frontiers, above all dissension about rites and dogmas. It is a religion based upon the inner spirit of God, upon the great, not-to-be-overcome verity that God is love, meaning just that: 'It teaches that all hatreds, intrigues, suspicions, evil words, all aggressive patriotism even, are outside the one essential law of God, and that special beliefs are but surface things whereas the heart that beats with divine love knows no tribe nor race.

It is a wondrous Message that Baha'u'llah and His son 'Abdu'l-Baha have given us. They have not set it up aggressively, knowing that the germ of truth which lies at its core cannot but take root and spread.

There is only one verity in it: Love, the mainspring of every energy, tolerance toward each other, desire of understanding each other, knowing each other, helping each other, forgiving each other.

It is Christ's Message taken up anew, in the same words almost, but adapted to the thousand years and more difference that lies between the year one and today. No man could fail to be better because of this book.

I commend it to you all. If ever the name of Baha'u'llah or 'Abdu'l-Baha comes to your attention, do not put their writings from you. Search out their books, and let their glorious, peace-bringing, love-creating word and lessons sink into your hearts as they have into mine.

One's busy day may seem too full for religion. Or one may have a religion that satisfies. But the teachings of these gentle, wise and kindly men are compatible with all religion.

Seek them, and be the happier." By the late Queen Marie of Rumania.

Tall Tree

The General Sherman tree, a sequoia in the Sequoia National park, is 272 feet high and some authorities set its age at 4,000 years. When the General Sherman tree was a sturdy young sapling, Babylon was a village of nomads; Greece and Rome were a thousand years away. It was 3,000 years old when Lief Ericson first saw America. Countless fires have gnawed at the base of the General Sherman until only 40 per cent of the live wood is in contact with the ground. The tree is gradually healing the scars and it seems likely to live for another 1,000 years or so. From the American Wildlife Institute.

"Somewhere Abroad, July 8"—Thus Sgt. Charles G. Gafis dates a letter just received by the News. Sgt. Gafis said he had just received his first copy of the News and that he and the rest of the boys enjoyed it very much. He says he has been in Antioch many times and thinks this is a very fine community. It is a fine community, Charles, and the people here appreciate what the boys in service are doing. Of course, we have a few flag wavers and politicians who seize every opportunity to make grandstand plays, but for the most part there is honest to God patriotism in the community. There are nearly 150 boys in service from this small community. They are all on the News mailing list.

Military personnel in Illinois, Wisconsin and Michigan not only are helping fight the war. They're also helping to pay for it.

Ninety-one per cent of the officers, enlisted men and civilian employees under the Sixth Service Command have subscribed for the purchase of War Savings bonds through the pay deduction plan following an intensive campaign throughout the command, it was announced by Major General George Gruert, Commanding General of the Service Command.

Affect Tire Life

Almost everyone has some bad driving habits and many of these definitely affect the life of tires, such as rushing up to a traffic light and slamming on the brakes. Men say women have more of these than men have. Have they? The head of some driving school or tire repair shop or large garage could answer that, and describe just what he has found to be the feminine driving habits which lessen the life of tires.

Plane Output Rose 85% in Six Months

More Fighters, Few Trainers Now Turned Out.

WASHINGTON.—Production of military airplanes by American industry has increased nearly 85 per cent in the six months since Pearl Harbor, Col. John H. Jouett, president of the Aeronautical Chamber of Commerce, reported.

"Many striking advances in manufacturing technique, in design of new harder-hitting, further-ranging warplanes, in labor training and in other phases of the aircraft industry's all-out war production effort, have been made since the treacherous Japanese assault on Pearl Harbor," Colonel Jouett reported. "All of these advances have contributed to the increase in production."

"The simple statement of the production increase does not tell the whole story, by any means. Much of it cannot be told now. Some of it can. For instance, because the air forces' vastly expanded pilot training programs are proceeding according to plans, actual fighting planes are comprising an ever-increasing percentage of total production, with trainers representing a correspondingly smaller percentage."

"Aircraft engine production has been boosted nearly 80 per cent since Pearl Harbor. This increase was in part due to the automotive companies which are building aircraft engines, using the designs developed by the old-line aircraft engine companies. These companies are now coming into substantial production."

Airplanes Patrol Vital Gasoline Pipe Lines

NEW ORLEANS.—Patrolling of gas pipelines by airplane—a peacetime use for airplanes which is little-known to the average person—was outlined by C. B. McMahan, St. Louis gas company official, before a New Orleans convention.

Reports by airplane observers have saved the company's line from blow-ups four times in almost eleven years, and there has never been an interruption of service, McMahan said.

Some of the advantages of bird's eye surveys of pipelines, he pointed out, are these: It is cheaper than using boats; it gives a better view of general terrain than can be seen afoot or on horseback; discoloration of surrounding ground from leaks is easier seen from a height of 300 feet or higher than on the ground itself; "washes" in watery areas can be spotted better.

Furthermore, McMahan related the good-will value of such constant airplane flights through isolated country, especially since the pilot makes a practice of dropping off late-edition newspapers and used magazines at the farm-houses along the route.

The plane used was originally a four-seater, and is flown at a cruising speed of 120 miles per hour.

Reindeers Reported as Dwindling in Alaska

KETCHIKAN, ALASKA.—Reindeer herds in northern Alaska are diminishing rapidly, according to testimony by representatives of the office of Indian affairs before a house committee, reports received here said.

The testimony revealed that although 84,000 reindeer had been purchased from the former white owners about two years ago, only approximately 50,000 of those reindeer are now in existence. The remainder were said to have been destroyed by wolves and coyotes, or starved to death.

It was further stated in the testimony that whereas there were formerly 641,000 reindeer in all of Alaska, that number had now been reduced to 205,000.

Photos Taken by Tourists Help in Commando Raids

LONDON.—An admiralty spokesman appealed to Britons to turn over all photographs taken in foreign countries, citing how a vacation snapshot played an important part in a recent Commando raid.

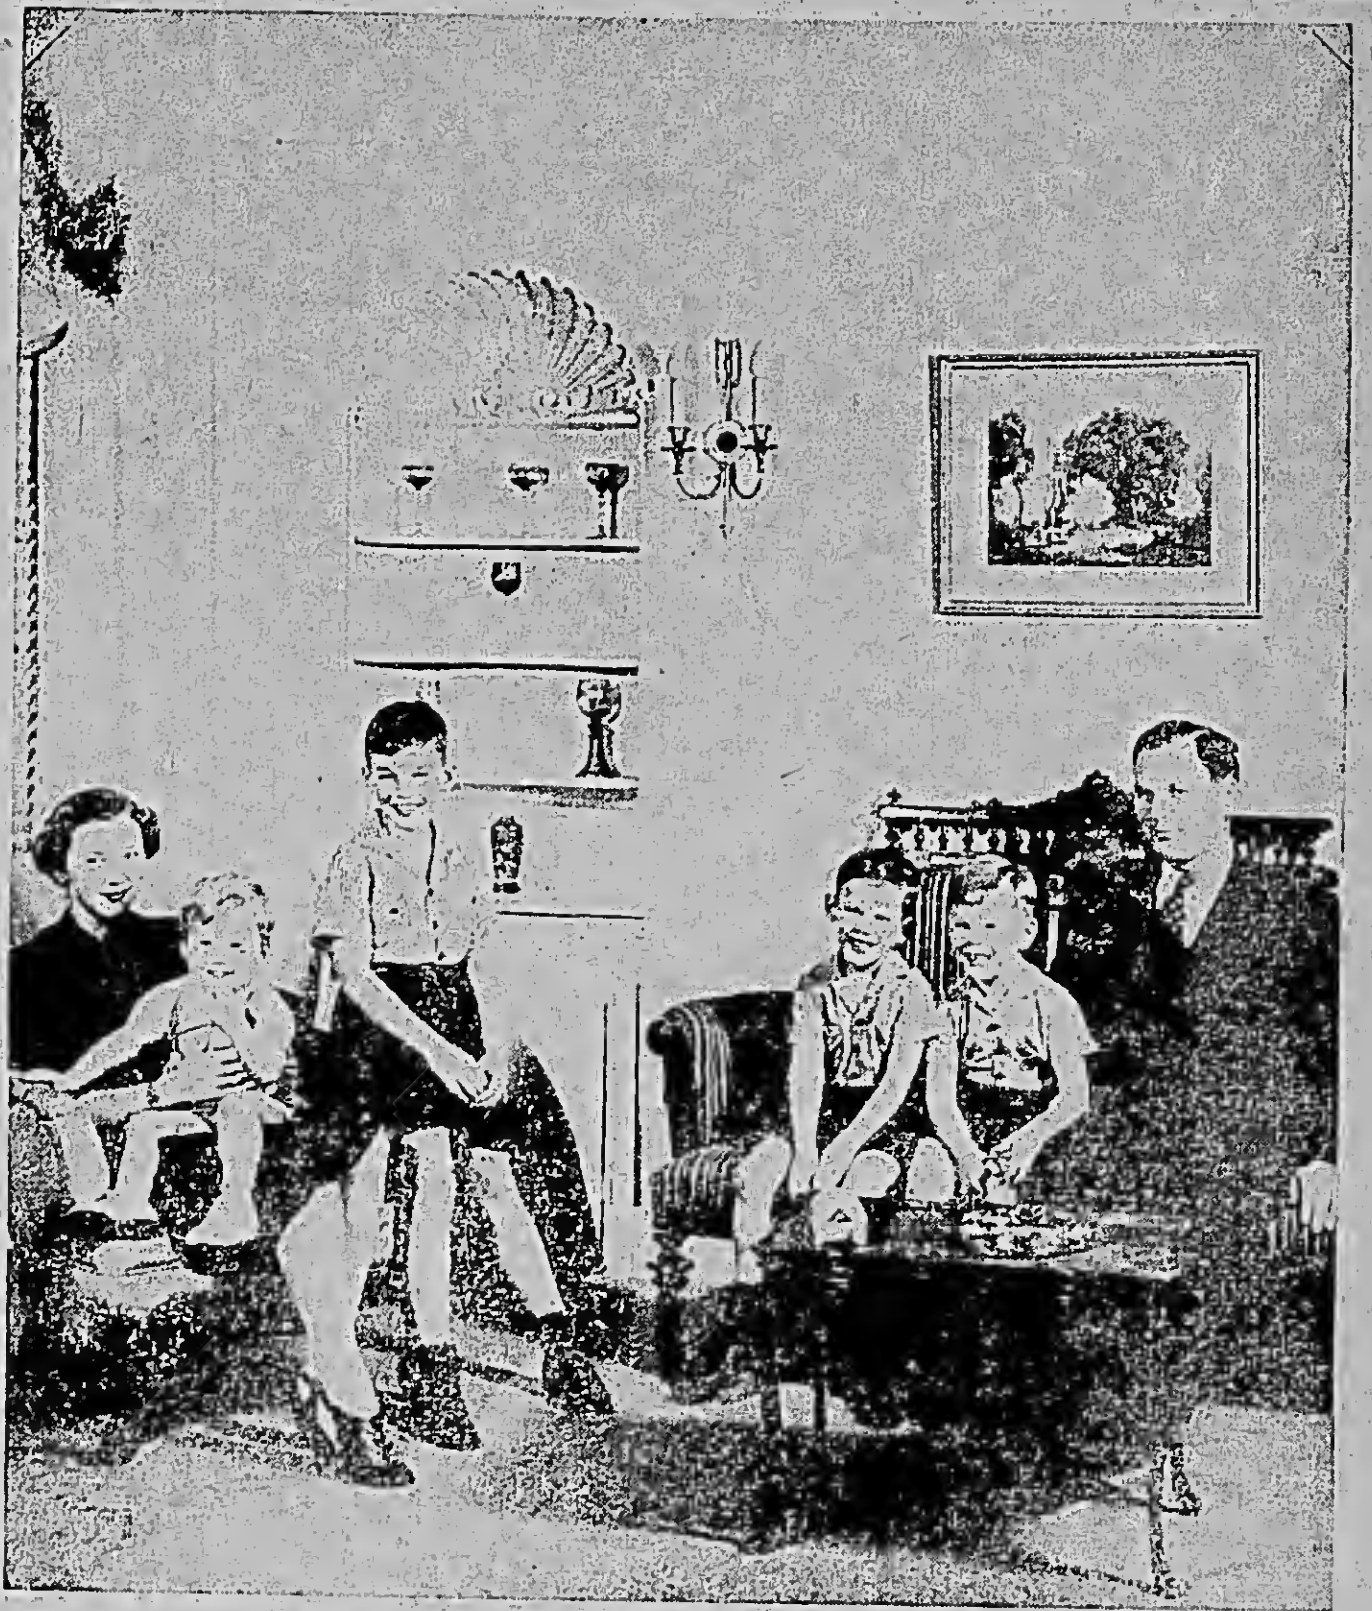

The admiralty staff member said over BBC that when the Commandos were planning the raid of Brueneval in Occupied France to destroy the German radio location center, all details were complete except that they lacked knowledge of several hundred yards of important French terrain.

A staff officer who spent a holiday near Brueneval remembered some pictures in his family album, and these supplied the needed information.

Horse Comes Back in Great Britain, Too

LONDON.—New fuel restrictions in Britain have brought the horse back into circulation, and have doubled his price. Horses that sold two years ago for \$200 are selling for more than \$400—when they can be bought. Brewers, dairy companies, coal merchants, laundries almost denuded the market.

Four Sons Can Say Their Dad's in Army

The family circle of W. E. Schroeder of Evanston, shown above, was broken a few weeks ago when Mr. Schroeder enlisted in the army air corps. He was selected for officer training and is now a lieutenant. Lieut. and Mrs. Schroeder are shown with their four children: James, 2½ years old; William, 9; Charles, 6½; and John, 5½.

EVANSTON MAN FATHER OF 4, IN ARMY AIR CORPS

William C. Schroeder Volunteers with His Wife's Approval

(Chicago Tribune, July 26)
W. E. Schroeder, 714 Sheridan road, Evanston, has five good reasons why he values America and her institutions enough to volunteer his service long before he would have been called. One is Mrs. Schroeder. The other four are their sons, William, 9 years old; Charles, 6½; John, 5½; and James, 2½.

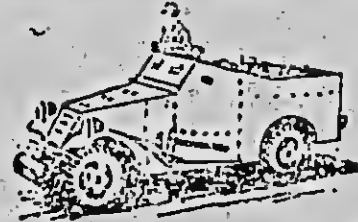

Schroeder recently earned his commission as a lieutenant in the army air corps. He received his training at Miami Beach, Fla., and is now stationed at A. A. F. C. C., Nashville, Tenn.

Until his commission expired in 1936, Schroeder was a reserve officer in the 317th cavalry. He did nothing about renewing the commission, but when Pearl Harbor was attacked he began planning immediately to re-enter the service, a decision which had his wife's sympathetic approval.

Lieut. Schroeder is a partner in C. K. Anderson & Co., 134 North La Salle street. He also was secretary-treasurer of 11 building corporations the company manages. He was a member of the board of the First National bank of Antioch and of Pickard, Inc., also of Antioch. He is a son of the late Dr. W. E. Schroeder, for 26 years chief surgeon at Wesley Memorial hospital. Dr. Schroeder was a baby when his parents left Germany for the United States to escape oppression.

What You Buy With WAR BONDS

A scout car is a low-slung motor car armored with heavy steel plate, used to transport troops from one point to another. It is of low silhouette and gives protection against machine gun and other ground fire. A scout car costs \$5,000.

You and your neighbors joining together can buy one of these vehicles for the Ordnance Department of our army with your purchase of War Bonds. We need hundreds of them and need them quickly. Put at least ten percent of your wages or income into War Bonds every pay day and help your fellow Americans top the War Bond quota in your county.

Motorists refrain from asking directions in strange cities rather than admit to the inhabitants that they do not know, when all the time the tags on their cars speak plainly enough of their probable ignorance.

Highlighting Carved Decorations

It will be found effective to paint the trim a light tint in a room whose woodwork has distinctive carving, such as a Colonial fireplace mantel, or a wide beautifully carved door or window, as are found in some of the old houses. This is because light colored paints show up the delicate shadows and thus bring out the carved decoration to the best advantage.

Strange Effects Follow Blast in Ordnance Plant

**Explosion Heard and Felt at
Points Hundreds of
Miles Away.**

CHICAGO.—Odd occurrences accompanied the murderous explosion recently in the army ordnance plant at Elwood, Ill., southwest of this city. The blast, which occurred about 2:30 one morning, was heard and felt at points nearly a hundred miles away.

In the nearby village of Elwood virtually no damage was caused. Many windows in Kankakee, 20 miles away, were shattered. In Berwyn, where houses shook and furniture rattled, several residents telephoned to the police and reported burglars. Berwyn borders Chicago directly west.

Along the North Shore, from Wilmette to Waukegan, slamming doors puzzled householders. From Hammond and Park Ridge came reports that pictures had been shaken from walls. Many Chicagoans who felt the explosion thought an earthquake had occurred.

Turns on the Water.
Two potted plants on a kitchen window sill in the Peter Hanson home in Elwood were hurled across the room and into the sink by the force of the blast. As they crashed into the sink they turned on the water. The noise awakened the Hansons, who mistook it for thunder. Then Mrs. Hanson heard the water running. "Get up," she told her husband. "It's raining; close the windows."

John Phelan of Joliet was driving along the highway a few hundred yards from the Elwood plant when the explosion occurred. His car was lifted from the road and dropped half into a ditch. But Phelan heard nothing.

Although the explosion shook buildings and broke windows far beyond the area in which it could be heard, it did not register upon seismographs, which record earthquakes. This is because seismographs record only those disturbances that shake the basic rock far below the surface. The Elwood blast's force was carried by the upper soil strata.

Phones Kept Busy.
Windows rattled in all parts of Aurora in the seconds that followed the blast. Sgt. Harold Kellet said he lost count of the phone calls he received from citizens who thought burglars were tampering with their windows.

Though windows were smashed and buildings shook in Joliet, the roar of the explosion was mistaken for thunder by most persons who heard it. There was little stir until morning when newspapers spread the story.

At Lockport, where the blast was both heard and felt, officials received hundreds of phone calls, according to Fire Chief William Clark. Most callers feared a large oil plant there had exploded, few asking about the ordnance plant, he said.

Two windows in the Gary police station were shattered and the pieces blown inward at the instant of the ordnance plant blast, but Desk Sgt. Chester Westcott heard no explosion, he said. Within the next four minutes he received 11 phone calls as householders reported burglars trying to enter through windows. Police squads were kept busy more than an hour answering similar calls.

His One-Man Farewell

Party Lands Him in Jail

CINCINNATI.—"I was celebrating because I'm going to the army Friday. I drank everything they would sell me—beer, whisky, gin and rum," boasted Everett McConnell, 29, after his arrest on a charge of driving while intoxicated.

McConnell was arrested by Patrolmen Fred Zobel and Thomas Kaufman. He drove west on Court street, they charged, during the heavy market rush hour, barely missing trucks and stand operators. At one point his vehicle leaped in the air, bouncing along for more than 30 feet, and leaving short skid marks, the officers reported.

Bark of Puppy Saves

Baby From Rattlesnake

CASOR, N. C.—Spotty, a bird dog puppy, was there in the clutch, and today three-year-old Patricia Whelan was none the worse for a brush with a rattlesnake.

Patricia was playing in a field when the four-foot rattler coiled and began his war chant.

The child was unaware of danger, but the puppy leaped between the girl and the snake, barking furiously and circling the snake. The barking attracted Patricia's brother, who was cutting wheat nearby, and he killed the snake.

Suspect's Name on Jury

Panel for His Own Trial

SOUTHPORT, N. C.—In the midst of the drawing of a special venire of 100 "good men and true" for possible jury service in a murder trial, the name of Dorsey Cox was called.

Clerk of Court Sam Bennett, to whom the name had a familiar sound, groped back through his memory for a moment, then jumped up suddenly, exclaiming:

"He's ineligible. He's the man on trial."

Motherly Hen Takes Over Cat's Nursery

SALINA, KAN.—Spotty, the cat on the Keith Hughes farm, chose a nest in the henhouse as the nursery for her five new kittens. The first time Spotty left for forage for food, a setting hen moved in.

Returning, the cat crawled into the nest, too. The hen made room for her.

2 Couples Vanish In Deep Mystery

Seven Years' Investigation Proves Futile.

CHICAGO.—After seven years of futile search and investigation, the sudden disappearance of two middle-aged Illinois couples somewhere in the barren stretches of western New Mexico appears destined for the files of unsolved mysteries. Some time after May 22, 1935, the four vacation autoists, George M. Lorus, 50 years old, of East St. Louis, Ill., a coal dealer; Mrs. Lorus; Albert Heberer, 52 years old, of DuQuoin, Ill., proprietor of a barber shop; and Mrs. Heberer, simply vanished. Under Illinois law a person may be declared legally dead after an absence of seven years.

If they were murdered, no one has been able to establish exactly when, or where, or why, or by whom.

The case is a mess of useless clues, of crank revelations, of bizarre explanations, of scores of suspects arrested and released.

The two couples were touring in the Lorus automobile. They planned a sightseeing tour into Mexico. On the morning of May 22 they drove from Vaughan, N. M., toward Albuquerque. The last word received from them was a postcard dated May 22, from Albuquerque. But the travelers never reached there. Who mailed the card is not known.

Evidence but Poor Clues.

On May 23 the Lorus car was found abandoned in Dallas, Texas. Early in June, 1935, the charred remains of luggage and a card bearing the name of Mrs. Heberer were found in a canyon near Albuquerque. Then came the discovery that 20 traveler's checks, totaling \$240 and issued to Lorus, had been cashed on his forged signature along the El Paso-Dallas highways.

The skeleton of a woman was found in the Rio Grande river near Belen Bridge, N. M., in 1939. Texas officials expressed belief the four were murdered south of Albuquerque and thrown into the Rio Grande.

In vain Gov. Clyde Tingley led 1,000 searchers through the rough country. Lakes were dragged, bodies exhumed and deathbed statements investigated.

Youngster, Aged 14, Is

Professional Magician

PITTSBURGH.—Gilbert Daniels, 14, youngest professional magician in this area, is the envy of all the neighborhood kids.

For Gilbert can pull rabbits out of hats, read minds, and do most everything the older mystics have done.

A protégé of his magic-minded scoutmaster, Kenneth Dietz, Gilbert inherited the honor of being the youngest magic-maker when his teacher was inducted into the army.

The youth had been acting as assistant to Dietz, performing as drummer, chalk-talk artist, and proving an apt pupil in rope-twirling, mind-reading and dramatics. He also designed most of the apparatus used in the act, making it in his manual training class at Swissvale high school.

When he was drafted, Dietz left most of his magic equipment in care of his protégé. The boy, during his five years in the magic "business" has acted as assistant at over 100 performances Dietz has given.

He is the youngest member of Mystic 52, Pittsburgh Musicians club, and has already attended a convention of the International Brotherhood of Magicians at Cincinnati.

Detecting Job Simple

For Police Chief Mady

GREAT FALLS, MONT.—Pvt. William Jones of the Royal Canadian force, lost the address of his uncle, who lived in Montana.

The Canadian Mounted police said they could not help him, but suggested he write Police Chief Mady of Great Falls.

In a few days Jones received a letter from Mady saying his uncle had been found living in Great Falls. What he didn't know was that his uncle operated a grocery store situated between Chief Mady's residence and the sheriff's headquarters.

'Dentist' Visits Home,

Pulls Tooth and Flees

NOTTINGHAM, ENGLAND.—A strange man called on Mrs. Mabel Foulkes, said he had come at the request of a friend of hers to examine her teeth, then pushed her into a chair, extracted one of her teeth and ran out of her house, shouting:

"What a beauty!"

Mrs. Foulkes' sister, who was a witness, ran for help, but it was too late. Mrs. Foulkes fainted.

Find Out by Weight
What makes what? The best way to find out is by weight. If a pair of rubber gloves and a rubber bathing suit and a couple of sink stoppers should total up to 1½ pounds (and we don't know whether they do or not!), then they also add up to one gas mask. Some women might like to know just what their scrap is worth in terms of war material. For instance: If her scrap totals 14½ pounds, she's collected half of one of the pneumatic rafts carried by planes. A whole raft needs 29 pounds.

Stay on It

If you have a war job, stay on it until and unless the United States Employment service says you can be more valuable elsewhere. If you are working in a civilian industry which can be converted, stay put until a war job is made for you. If you are in a non-essential civilian industry start looking for a war job through the United States Employment service. If you are taking technical work in high school or college finish your course—you'll be more valuable in the end.

Odorless Paint

The introduction of alkyl emulsions has made it possible to produce paints free from odors, and which are very satisfactory for painting plaster, brick, cinder blocks, concrete blocks and similar surfaces. With this, rooms may be occupied one hour after painting with no discomfort from paint odors or danger of marring the finish by touching it.

Skilled Workmen Shortage

Uncle Sam needs skilled workers on the production line. Labor shortages exist now in the shipbuilding, aircraft, tanks and ordnance, metal working and machinery industries. These lines include nearly 100 skilled occupations. If you are a skilled or semi-skilled workman see your nearest United States Employment service office today.

International Court and Police Force For Postwar World Envisioned by Hull; Nazi Drive Increases Russia's Peril; Rommel Stymied by Allied Air Power

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)
Released by Western Newspaper Union.

Maj. Gen. Carl Spaatz, chief of the American air forces in the European theater of action (left), pins the Distinguished Service Cross on Maj. Charles C. Kegelman. Taking part in a recent bombing raid on enemy airfields in Holland, Kegelman brought his ship back safely after an motor was wrecked and a wing damaged in fighting with German forces.

POSTWAR WORLD:

Hull Envisions

When silver-haired Cordell Hull broadcast an appeal for a safe and saner postwar world, it was clear that a majority of Americans agreed with his thesis that the peace as well as the war must be won by the United Nations if future chaos is to be avoided.

In an address heard around the world, the secretary of state made these points:

1. The United Nations' immediate problem is to win the war—decisively.

2. After the war surveillance must be exercised over Germany, Japan, Italy and their satellites by the United Nations until the aggressors prove their willingness and ability to live at peace with other nations.

3. Disputes must be settled by peaceful means. An international court of justice would provide respect for law and obligations.

4. Freedom is to be assured by removal of economic and political shackles. Errors of extreme nationalism that caused the present war must be avoided.

EGYPT:

Air Power Tells

It had become increasingly clear that air power was assuming a decisive role in the fight for Egypt. Steady reinforcements of the British air arm had enabled the Imperials to launch an offensive along the 35-mile front from El Alamein on the Mediterranean to the Quaterna marshes, paced by an RAF onslaught that drove Nazi planes from the sky.

The British drive dislodged the Nazis from oft-disputed Tel el Eisa (Hill of Jesus) in the north and succeeded in making considerable headway along the center.

Activity by the Allies had followed a week-long assault by American and British planes and British warships on the North African coastal highway on which German Marshal Rommel had rushed reinforcements to offset the capture of 6,000 Italians on the Egyptian front in previous engagements. In raids covering 275 miles of Rommel's exposed supply route, British planes virtually wiped out the El Daba airport near the Egyptian lines.

REQUIEM:

For U-Boat Crew

Burial with military honors is the hope of friend or foe alike, if death in battle is the fighting man's lot. This a tradition sanctioned by the ages was followed when the bodies of 29 German submarine crew members were buried in Hampton, Va. The victims were the first enemy dead to be landed on American shores since the beginning of the war.

The bodies and a few empty life jackets were all that remained afloat after a destroyer on Atlantic patrol sank the U-boat. The same honors were accorded the enemy as Americans might wish for their own dead, if the circumstances were reversed. Navy chaplains read the requiem. A navy firing squad fired a salute of three volleys. A navy bugler sounded taps.

HIGHLIGHTS . . . in the week's news

LONDON: The British information service said that British women are now nearly 100 per cent mobilized. Of 15,000,000 women between the ages of 18 and 64, the agency said, 7,500,000 are doing full time jobs in war production. About 670,000 others are disabled and 5,500,000 are taking care of families. Many others are serving in the auxiliaries of the army and navy.

RUSSIAN FRONT:

Terrible Days

The gravity of the Russian situation could not be underestimated and no attempt was made to belittle its seriousness. Germany's report of the fall of Rostov emphasized the crisis.

As the sorely pressed Russians guarding the approaches to the Caucasus and the Volga river had fallen back before the million-man German army smashing its way southeast down the Don river valley, the Soviet army organ, Red Star said frankly: "Terrible days face the country." It called upon the fighting men of Russia to emulate the example of 28 Red soldiers, who in the defense of Moscow last winter, died fighting a tank charge with little more than their bare hands.

The speed of the new Nazi drive against the Reds' celebrated defense-in-depth technique was believed to be due to the Germans' use of a crushing, mass maneuver which employed monster tanks, armored trains, heavy mortars and an unprecedented concentration of air power.

Only comforting note in the bleak picture was the success of Russian soldiers in regaining ground far to the north in their counter-offensive around Voronezh. By turning the Nazis back here, Marshal Timoshenko might be able to take some of the pressure off Red forces in the deep South who had fought with their backs to the wall in defense of Rostov.

U. S. CASUALTIES:

Show War's Trend

Casualty figures released by the Office of War Information revealed that the navy's losses since Pearl Harbor were 15 times greater than for the entire span of World War I. The OWI's statistics disclosed naval casualties thus far totaling 12,143 compared with 871 in the first World war. The current casualties included 3,420 killed; 1,051 wounded and 7,051 missing. Those of World War I included 856 killed in action; 58 died of wounds and 456 lost at sea.

The army's losses in the present war, were placed at 19,767. These included 902 killed; 1,413 wounded and 17,452 missing. That the Philippine Scouts trained under General MacArthur had given a heroic account of themselves was indicated by casualties listing 479 killed; 754 wounded and 11,000 missing.

Casualties for all services were placed at 44,413.

"The bulk of the army casualties fall into the category of missing," the OWI said.

FEMINE ARMY:

WAAC Trains Hard

Every morning at 5:45 a. m. from now until next November 9, 800 members of the newly organized Women's Auxiliary Army corps will leap from their army cots to begin a crowded day of drills, lectures and training at their camp at Fort Des Moines, Iowa.

By November 9, America's first feminine army of occupation will begin to spread out to 10 forts throughout the country to relieve men in the armed forces for active combat duty.

JAPANESE:

Mixed Tidings

Taking their first offensive action in the southwest Pacific since their disastrous defeat in the Battle of the Coral Sea last May, the Japanese landed an invasion force at Buna, 100 miles directly across the eastern arm of New Guinea from Port Moresby, last Allied outpost of Australia.

A Melbourne communique reported that United Nations planes had attacked the invasion fleet and sunk a large transport and barge, but did not prevent the landing.

On the Chinese front the Japs did not have such happy tidings to report to Tokyo. First item of bad news was the recapture by Chinese armies of Kiench, a key point southwest of Hangchow. Second item was a report that United States bombers had sunk two Japanese naval craft on the Fu river in Kiangsi province.

Meanwhile along the Hangchow-Nanchang railway the Nipponese invaders were being constantly harassed by Chinese guerrillas. The official Central News agency disclosed that Chinese farmers had been armed with 30,000 rifles in each county of western and southern Chekiang province. They are organized into units strong enough to destroy small enemy detachments. If superior Japanese forces approach, they withdraw, leaving their villages stripped.

ANTI-INFLATION:

OPA Gets \$120,000,000

Price Administrator Leon Henderson was given \$120,000,000 with which to fight inflation, when the house of representatives agreed to adopt a conference committee's recommendations to compromise its differences with the senate.

The outspoken Henderson thus got \$75,000,000 less for financing his operations than he had originally asked for, but actually \$45,000,000 more than the house had first voted. Political wiseacres observed that the result was simply an illustration of the old game of give and take. Henderson had first asked for more than he expected, the house first voted less than he actually needed. The finale was a compromise satisfactory to all.

WAR PROFITEERING:

Halted by House

Drastic steps to curb wartime profiteering were taken when the house of representatives passed a bill outlawing commission fees on government contracts, after Chairman Carl Vinson declared that agents, obtaining war contracts from manufacturers were "fleecing American taxpayers."

Testimony presented previously in the house naval committee had disclosed that three Washington firm of so-called "sales engineers" had earned close to \$2,000,000 in commission fees on government contracts in the past six months.

LEAHY:

Eyes and Legs

Called from retirement to a newly created position of chief of staff to the Commander in Chief was Adm. William Daniel Leahy, former chief of naval operations and more recently ambassador to Vichy France.

With all the world discussing prospects of the United States Britain opening a second front

ADMIRAL WILLIAM D. LEAHY

Europe this year, the appointment of Admiral Leahy to the new position was hailed as significant of supreme efforts ahead. Regarded as an able strategist, Admiral Leahy in the words of President Roosevelt will serve as "his eyes and legs and relieve him of many detail duties."

The Chief Executive, however, made it clear that Leahy would not be supreme commander of the United Nations' forces, or even of American forces. Although Mr. Roosevelt did not use the term, it appeared that the admiral would become an assistant commander in chief, ranking all naval and military officers but the President.

AIR LEVIATHANS:

Aid War Effort

Giant airplanes shuttling across the seven seas carrying men and materials for the world's fighting fronts will become an increasingly important arm of Uncle Sam's service of supply, it was disclosed by Brig. Gen. Harold L. George, commanding the air transport forces who announced that the army would rely on commercial airlines to operate greatly increased numbers of transport planes.

LAKE VILLA

While the Rev. MacArthur was absent with the Boy Scouts at Camp Ma-ka-jaw in Wisconsin last Sunday, Charles Caster, former secretary of Y. M. C. A. work and now associated with the Y. M. C. A. at Camp Cullen east of town, preached the sermon and conducted the service at 11 o'clock.

The Women's Society of Christian Service has been invited by Mrs. Gunnarson to be her guests at her home at Fourth Lake for the next meeting on Wednesday afternoon, Aug. 5, and they have accepted the invitation. Visitors are also very welcome.

The W. S. C. S. shipped a quantity of used material and clothing to the Goodwill Industries in Chicago last week and expect to make another shipment soon.

The anniversary meeting at the church last Friday evening was well attended and very enjoyable. These meetings are growing in popularity. Out of town guests included Mrs. Nettie King Smith of Garne, Miss Olive Nelson of Waukegan, Mrs. Florence Cook of Mundelein, Mr. and Mrs. John Mitchell of Libertyville, Mr. and Mrs. Jesse Kingsley of Woodstock, Ill., Mrs. Rushmore of Fox Lake and Ed Palmer of Chicago. The next meeting will be on Friday evening, Aug. 21, when more interesting facts of early 1900 will be brought out and more pictures shown. All are welcome.

Mrs. C. Blumenschein and Mrs. A. McGlashan were Waukegan visitors on Monday.

The girls of the Peacock Camp for Crippled Children offered songs and comedy sketches for a program Tuesday evening last week at Lido, the pool on the Augusta Lehmann estate in Lake Villa when the camp entertained the board of directors and a large group of friends from Chicago and the village. The girls were completing their vacation and a group of boys are now having their turn at this beautiful camp between Deep and Crooked lakes. Mrs. M. V. Reynolds, Mrs. Haerther and Mrs. G. W. Reynolds, daughters of Mrs. Peacock, were among the hostesses.

Mr. and Mrs. Clarence Blumen-schein, Mr. and Mrs. Gordon Blumen-schein and daughter spent last Saturday and Sunday with Mrs. C. Blumenschein's cousin, Frank Galbraith and family at South Bend, Ind. Mr. Galbraith is head male nurse at the new Studebaker Airplane factory at South Bend.

Mr. and Mrs. Roger Johnson, nee Dorothy Koelstra, recently came from Wisconsin Rapids, and for the present are living in Lake Villa while Mr. Johnson is employed at Great Lakes.

Mrs. Virginia Whittemore and daughter, Anne, of New Orleans, La., Metallurgical corporation. The groom attended high school in Oak Park.

Mr. and Mrs. E. Bray at Buena Park on Fox Lake.

Miss Olive Nelson of Waukegan was the guest of Mrs. Frank Hamlin and Mrs. Ballenger last Friday night and Saturday.

Mrs. Lloyd Atwell, Mrs. Ralph McGuire and Mrs. Carl Wallner drove to Sturgeon Bay, Wis., last week Wednesday and returned Friday evening after visiting the cherry orchards there and they brought back a quantity of cherries. It was a pleasant outing.

Mrs. Mabel Spalmer of Chicago spent the end of the week with her father, B. Falch, her sister, Ruby, and brother, Royal.

Robert L. Tanner is taking a special course in Chicago in training for duty in the U. S. Navy very soon.

Mr. and Mrs. Carl Wallner spent Saturday night in Chicago and with relatives they drove to Champaign, Ill., on Sunday to visit Mr. Wallner's sister and husband there.

Mr. and Mrs. Richard Homan of Muskegon, Mich., spent last Thursday with her brother, Russell Nickerson and family.

Mrs. Stella Pedersen's two brothers and other relatives from Chicago spent Wednesday this week with her.

Mrs. Arthur Nauta and son, Arthur, of Waukegan were guests of their daughter and sister, Mrs. Lester Hamlin, on Tuesday.

The Fox Lake Cemetery Association will hold a regular meeting at the Monaville schoolhouse on Thursday evening, Aug. 6, and members are asked to be present. Eva Atwell, secretary.

Cannon-Bennecke

A wedding of much interest to many in Lake Villa took place last Friday evening, July 24, at 8:30 in Gunnee when Dorothy Margaret Cannon, daughter of Mrs. Leslie Cannon, was married to Henry Melvin Bennecke, son of Mr. and Mrs. Charles Bennecke, Sr., of Lake Villa in the presence of the immediate families of the couple by the Rev. W. A. MacArthur of Lake Villa. They were attended by Carol Cannon, sister of the bride, and Clarence Bennecke, brother of the bridegroom, while David Bennecke, another brother, played the wedding march.

The bride was very attractive in her gown of white frosted organza with finger tip veil and a shower bouquet of white roses. The bridesmaid wore a gown of blue frosted organza and carried red roses. The decorations of the home were in red, white and blue, in keeping with the military uniform of the groom who is in the Army Air corps stationed at Harlingen, Texas, and who returned to his duties on Wednesday of this week.

A reception at the home followed the ceremony. The bride is a graduate of Warren High school and is employed at the office of the Faustel Metallurgical corporation. The groom attended high school in Oak Park.

Prairie Pups' Purpose

Prairie dogs apparently have a purpose in life. Recent studies at the Texas Co-operative Wildlife Research unit, supported by the American Wildlife Institute, show that the mounds thrown up by these rodents cover less than 1 per cent of the total area. In sample plots under observation, gophers threw up an average of 99 mounds per acre each month, or nearly four tons of earth per acre each year. This natural cultivation of the soil is thought to be beneficial.

Faithful Service

ABUNDANT GRATITUDE is due to our soldiers who leave all and go to defend country, home, freedom, Christianity. In their unselfish service, they stand ready to give the "full measure of devotion" for a right ideal.

The Apostle Paul was a great soldier who gave his earthly all for the cause of Christ. In his second epistle to Timothy he said (2:3, 4): "Endure hardness, as a good soldier of Jesus Christ. No man that warreth entangleth himself with the affairs of this life; that he may please him who hath chosen him to be a soldier." Now, as always, each one is chosen to be a soldier of Christ, to win the battle for freedom and peace for himself and for all mankind.

Mary Baker Eddy, the Discoverer and Founder of Christian Science, in a message to The Mother Church in 1898, wrote as follows (Christian Science versus Pantheism, p. 14): "In your peaceful homes remember our brave soldiers, whether in camp or in battle. Oh, may their love of country and their faithful service thereof, be unto them life-preservers! May the divine Love succor and protect them." Today these words inspire the grateful heart to uphold with justice, good works, and humble, consecrated prayers, "our brave soldiers, whether in camp or in battle."

In these perilous times shall not each one answer the call and obey the demands of our great Master, Christ Jesus, who said (John 8:31, 32), "If ye continue in my word, ye shall know the truth, and the truth shall make you free"? Continuing in his word, we escape the entanglements of sin, sensuality, and intemperate habits, which would weaken, confuse, and destroy our ability to be good soldiers of Truth.

The battle for freedom is being waged primarily in individual thought.

Unemployment Benefits

In 1939 unemployment benefits were paid by labor unions to the extent of \$276,717, which is about normal for periods of prosperity. In 1930 this rose to \$3,311,279 and in 1931 to \$9,146,724.

ing, where the hordes of evil suggestions and material beliefs that seek to destroy our peace and progress are put to flight and made void by spiritual ideas which come from the all-governing, Infinite Mind. These ideas are intelligent, loving, perfect, and complete. They reflect the permanence and power of eternal good; they are the host of angels that guide, protect, and comfort.

A young soldier who was talking with a friend said he was not afraid of battle, whether on land, in the air, on the sea, or under the sea; but he was troubled by the thought of the temptations and inducements to do wrong which present themselves.

As children of the one Father-Mother God, all men possess unalterable spiritual independence and poise. These divinely mental states cannot be shaken, subdued, or obscured. They include neither self-righteousness nor condemnation; but shine through the mists of intolerance, personal domination, arrogance, and ridicule, revealing the perfect man. Those who perform faithful service, firm in their spiritual independence, often experience in return expressions of good fellowship, brotherly love, and appreciation of qualities of character that are spiritual and substantial.

A true follower of Christ, Truth, is law-abiding. He follows the course that, from a human standpoint, is nearest right; that will bring the greatest good to the greatest number. And right motives are rewarded in strength and freedom.

When the commandments of Jesus are here and now obeyed, then will there be peace on earth. And all can obey commands such as these (Matthew 7:12): "Whatsoever ye would that men should do to you, do even so to them;" and (John 15:12): "This is my commandment, That ye love one another, as I have loved you."

—The Christian Science Monitor.

Drive Slower in Summer

In the good old summer time, drive less and drive slower! Tires wear five times as fast in temperatures of 100 degrees as at 40 degrees; twice as fast at 90 degrees as at 60 degrees. And there won't be any more tires when those are gone... not for a long time at any rate.

Hunting and Trapping
According to a census report, 87 women in the United States earn their living by hunting and trapping. We're trying to get the census bureau to pursue those figures further. We think they've dropped five or six ciphers somewhere.
